

Eligible Equipment

New Gehl and Mustang branded:

- Skid Loaders
- Articulated Loaders
- Excavators
- Telescopic Handlers
- Track Loaders

Your participating dealer will describe the Power Protection Plan coverage terms available for the eligible equipment you are purchasing.

Financing Options

Financing is available for the Power Protection Plan as long as the Plan is financed with the original equipment purchased.

Plan Transferability

Transfer is available. To ensure our customers are totally satisfied, we require that the sales transaction be handled through an authorized dealer.

Power Protection Plan Benefits

- Flexible plan options, customized to your individual needs.
- Plan transferability, with the opportunity to increase your trade-in and resale value.
- Option to finance coverage with the equipment purchase.
- Less machine down-time.
- Planned ownership costs.

When you buy Gehl and Mustang equipment you get the dependability of a company that's been building equipment for more than 145 years. Not only do we have great products and financing, but we also have equipment protection and superior aftermarket support through our distribution network.

The Power Protection Plan is just one more advantage in doing business with your Gehl or Mustang dealer. To determine the coverage that's right for your business, talk to your local dealer.

Please refer to the "Terms and Conditions" for complete plan details.

Protect Your Investment

Power Protection Plan[®]

Why should I invest in the plan?

Your equipment is an investment, and if you're interested in saving money over the long haul, then the Power Protection Plan is an investment you should consider.

If multiple-year equipment protection is what you require, then our Power Protection Plan is what you need. The Power Protection Plan eliminates surprise repair costs and ensures repairs are made quickly with genuine manufacturer-approved parts by trained mechanics.

Plan options are available at an affordable price and provide you with the protection necessary to keep your equipment running properly.

Protect yourself against unexpected repair costs and downtime, invest in a Power Protection Plan today.

What are my plan options?

The Power Protection Plan allows you to select the right kind of coverage for your equipment. You may choose Power-Train Component Coverage or Full Machine Coverage. In addition, you decide the number of years and hours of coverage you need.

Special plans are available for equipment used by governmental and educational institutions.

When can I enroll?

You may enroll in the Power Protection Plan on the date of purchase of eligible equipment, or you may enroll anytime within six (6) months or 500 hours from the date of purchase of eligible equipment, whichever occurs first.
