

# How to *Win* with the **NEW** **GEHL 9-50 – Manitou 9050**

- The 50' lifting booms provide a larger working range than the Lull 944E-42 or the Pettibone T-944 units
- 120 HP Cummins power with 4 speed Dana powershift transmission and Dana Axles – all proven products.
- Steel tanks and dash
- Dual joystick as Lull machines
- Auxiliary hydraulic line is standard
- Foam filled 14 x 24 Tires Standard
- Quick boom extension with four section boom
- Exterior hose tray to avoid costly boom hose repairs inside the boom
- Land 5,000 lbs. at 47' without driving the machine.
- No need for front outriggers
- Visibility to the rear with a frame designed for operator visibility

Land at 47' with  
5,000 lbs. at 13' in  
front of the tires

Take 3,000 lbs. to  
20' in front of the  
tires up to 42'
